

The “Burning Bush” of April 20th will be hosted by the Communications Committee, and the topic will be angels.

There will be a presentation highlighting Catholic thought and dogma regarding these heavenly beings, snippets of saint’s experiences with angels, and discussion of the roles of angels in our lives. There also will be a slide show by Ludmila Vodopyanov, Russian physicist and photographer, who has photographed images of angels in different countries.

Enhancing the ambience will be a display of parishioners’ angel collections, and there will be faith-sharing and testimonials of personal encounters with angels.

Parishioners are now invited to submit testimonials about individual encounters with angels. These may be sent anonymously or signed. Some of these will be selected to be read at the session.

Please send your story to the Pastoral Center c/o Fr. George, Angel Project. It will then be passed along for review by members of the Communications Committee. The deadline for submissions is February 29.
